PROJECT HASH

CHECKLIST

Dead-on-arrival checklist

Check a new delivery and act inside the maker's window.

ON DELIVERY

- [ ] Inspect the outer box before you sign for it.
- [ ] Photograph any damage to the box and the unit.
- [ ] Keep all packaging until the miner has run cleanly.

FIRST TEST

- [ ] Start it with stock settings and stock firmware.
- [ ] Rule out the outlet, the power cable and the network.
- [ ] Save the dashboard status page and the log.

IF IT FAILS

- [ ] Contact the seller or maker straight away, while the arrival cover runs.
- [ ] Send the serial number, photos and log.
- [ ] Do not open the case or swap parts.

NOTES

General guidance. Where your maker's manual or terms differ, follow them.
